AIS DISCREPANCY REPORTS

July to September 2009 (Quarterly report)

1 The Maritime Safety Committee, at its eighty-third session (MSC 83/28, paragraph 4.34) in October 2007, requested Member Governments and organizations with consultative status to submit to the Organization details of ships entitled to fly their flag operating either without AIS or with AIS incorrectly configured. Such details should include, where possible, ship name, IMO number, call sign, date, position (latitude and longitude), details of the anomaly and promulgate such information by means of an MSC circular on a periodical basis.

2 The Secretariat continues to receive monthly AIS discrepancy reports on vessels found to be transmitting incorrect AIS data. Analysis of the information shows that in the majority of cases the errors relate to the transmission of wrong IMO number, MMSI (Maritime Mobile Service Identity) and Call sign and name for a particular ship. These information items relate to fixed or static information, which is entered into the AIS on installation and need only be changed if the ship changes its name or undergoes a major conversion from one ship type to another.

3 Member Governments and international organizations are invited to note the information provided in the monthly AIS discrepancy reports for the period July to September 2009, as set out in the annex, and bring them to the attention of all parties concerned.

ANNEX

AIS DISCREPANCY REPORT - JULY 2009

Name	IMO	Callsign	Date	Position	AIS Anomaly	Comments
Space	1009302	ZCT18	16-Jul-09	434036N 0071634E	ERRONEOUS	Vessel reporting Space Shuttle with Callsign 2BMW9
NIKA	8222408	9HBN6	03-Jul-09	335826N 0281520E	IMO ERROR	Reports IMO number 7173832
OLUF MAERSK	9251626	OXFU2	14-Jul-09	3548N 00920W	IMO ERROR	Transmitting IMO number 9251625
