1 Article VIII of the 1978 STCW Convention - Dispensations, requires that Parties "as soon as possible after 1 January of each year, send a report to the Secretary-General giving information of the total number of dispensations in respect of each capacity for which a certificate is required that have been issued during the year to sea-going ships, together with information as to the numbers of those ships above and below 1,600 gross register tons respectively".

2 In accordance with the said Article, the Secretary-General has been notified by a number of Parties of dispensations they granted during the year 2001. The information, provided by the Governments of Estonia, Finland, Greece, Italy, Panama and Portugal, is summarized in the attached annex. As a number of Parties have elected to replace 1,600 gross registered tons by 3,000 gross tonnage on certificates, the format for reporting to the Sub-Committee approved by the Maritime Safety Committee (MSC 52/28, paragraph 25.9) has been amended to include information presented by Parties on the numbers of ships above and below 3,000 GT.
